Document Body

Good afternoon DaMonica,

As you know we provided C6 with a copy of the draft UIC permit in order to identify any issues that needed to be resolved early so that the permitting process could proceed as expeditiously as possible.

C6 provided comments in two forms: a redline version of the draft UIC permit; and a separate comment memo. For your information and use, I am providing two documents:

First I have attached a "marked up" .pdf version of your redline with EPA's responses. As this process is not intended to be iterative, the wording changes in the permit will be as indicated in the attached .pdf.

Also attached is a list of technical questions to be discussed with you and your experts during tomorrow's call. It is our intent to resolve these technical issues so we may proceed with finalizing the permit requirements.

I am also prepared to discuss EPA's responses to your separate comment memo, if we have enough time tomorrow, otherwise we can schedule a separate shorter call for that purpose.

Redlinemarkup.pdf Technical Review Discussion with C6 on the April 2010 Draft UIC permit.docx

Regards, Michele
